To Whom it may concern.

On behalf of the residents of Rowley Brook Village & the houses opposite I present this petition on the condition of Rowley Rd between Hopkinson Rd & Nisbet St there are 10 indentations & as traffic particularly trucks go passed it is bang bang bang on each indentation

The road has been like this since preparations for the houses to be built on the South Side of Rowley Rd. It would be appreciated this could be solved permanently.

Rowley Brook Village also has a problem with Wirkong Brook which used to flow through our compound. For quite a few years it doesn't flow anymore & in Spring water becomes stagnant which causes mosquitoes. Council records would show we have had Health Dept attend a few years running. but the problem remains

Yours Sincerely.
RC Hoyce.
