

Application for Fee Payable On Demand Waste Collections

Need a mattress, lounge suite or white goods collected?

Please complete this form to organise a collection.

Mattress collection

The Shire will collect and recycle your mattress. The average mattress consumes 0.75m³ of space in landfill and contains approximately 12.5kg of steel, 2kg of wood and 1.5 kg of foam.

Cancellation or rescheduling a mattress collection shall be received no less than 2 working days prior to the scheduled collection date or the service will be forfeited and no refund will be provided.

White goods collection

White goods are large domestic appliances used for routine chores. Generally speaking, they are not easily transportable, which separates them from appliances like toasters and mixers. Examples of a common white good include a fridge, freezer, oven, stove, dishwasher, washing machine, clothes dryer and air conditioner.

White goods are disposed of via metal recycling programs, where they are shredded and their metal is recovered and reused. Fridges and air conditioning units are professionally degassed in accordance with the *Ozone Protection and Synthetic Greenhouse Gas Management Act 1989*.

Lounge Suite collection

The Shire will collect your old lounge suites and recover as much of the materials as possible. These items are particularly awkward to handle and transport but using the Shire's specialist team of contractors the removal of these items will be seamless.

Green Waste collection

The Shire will collect in a single pick up the equivalent of two 6'x4' trailer loads of green waste. The green waste will be taken to Watkins Road Transfer Station and turned into mulch for redistribution across the Shire and available to residents free of charge for collection.
