Introduction

What is the Corporate Business Plan?

The Corporate Business Plan 2022-26 is the Shire of Serpentine Jarrahdale's four-year delivery program, aligned to the Shire's Integrated Planning and Reporting Framework (i.e. Strategic Community Plan, Annual Budget, Long Term Financial Plan and other supporting strategies).

The purpose of the delivery program is to operationalise the Community's vision and the Shire's strategic objectives through the establishment of actions that address each strategy contained within the Strategic Community Plan:

PEOPLE

Objective: a connected, thriving, active and safe community.

PLACE

Objective: a protected and enhanced natural, rural and built environment.

PROGRESSIVE

Objective: a resilient organisation demonstrating unified leadership and governance.

PROSPERITY

Objective: an innovative, commercially diverse and prosperous economy.

The delivery program of the Corporate Business Plan is divided into the following five areas:

1. Advocacy Projects - the projects that the Shire will focus its advocacy efforts towards over the next four years.
2. Major Capital Projects - Capital Projects to be delivered over the next four years that are considered 'Major'. A Capital Project is considered 'Major' if:
 - The value is >\$250,000; and
 - it is a new construction; or
 - it is a significant expansion, replacement (i.e. upgrade), or renewal project of existing infrastructure.
3. Capital Works Program - planned capital expenditure on our assets over the next four years, excluding Major Capital Projects.
4. Strategic Operational Projects - projects funded from the operating budget considered 'Strategic' in nature because they demonstrate a strong link to the Strategic Community Plan.

5. Service Plan Summary - A summary of the Shire's day-to-day service levels and activities over the next four years that sit outside of the other abovementioned projects.

Performance Reporting

On a quarterly basis, the Shire completes this performance report against the Corporate Business Plan in order to plan and establish the following years Annual Budget and to inform the Annual Report where progress and significant revisions to the Corporate Business Plan are recorded.

This performance report also provides an important opportunity to update Council and the Community towards the achievement of the actions, such as the delivery of key projects and the successful implementation of service level changes.

Report Structure

This report includes an Overall Performance Snapshot where a summary of progress is provided and the key achievements and highlights for the reporting period are detailed. Following this is the narrative performance reporting for each action, sectioned into Strategic Community Plan objective areas (People, Place, Prosperity, Progressive) and grouped by respective delivery program areas.

To ensure consistency and to enable summary reporting, each action is also allocated a traffic light status in accordance with the following key:

Status	Selection Criteria
 On Track or Complete	Action is complete or on target.
 At Risk or Behind Target	Minor issues have put achievement of the project due date or level of service at risk, or Minor issues have put the project/service behind target. The causes for this are being managed by routine procedures and the issues are likely to be resolved by the next reporting period.

Status	Selection Criteria
<input checked="" type="radio"/> Critical	<p>Major issues have prevented the service/project from commencing or continuing. The causes for this do/will require significant action to rectify and the issues are likely to be ongoing into future reporting periods.</p>
<input type="radio"/> On hold	<p>Work is unable to commence due to a dependency (e.g. awaiting grant funding or completion of another project).</p>
<input type="radio"/> Deferred Proceeding or Not	<p>Action is no longer proceeding within its planned year of the Corporate Business Plan but will be occurring within a future year of the Corporate Business Plan, or Action is no longer proceeding within the timeframe of the current Corporate Business Plan. This may be due to a change in direction caused by external factors (e.g. loss of grant funding / change of government) or a change of direction by Council.</p>

Overall Performance Snapshot

PEOPLE

Objective: a connected, thriving, active and safe community.

PEOPLE – A connected, thriving, active and safe community

Community feedback

Residents enjoy a lifestyle that is peaceful and quiet, they would like the tranquillity of the Shire to be maintained as residential growth occurs. An element of this lifestyle is the neighbourly engagement that occurs and the sense of community.

Despite close proximity to the metropolitan area, residents feel a strong sense of community within the Shire. The community is close-knit, akin to a small country community where neighbours are friendly and tend to be family oriented.

Many believe the Shire encapsulates a 'family friendly lifestyle.' The relaxed country lifestyle is the most valued quality of the area.

Aspirations and opportunities

The community wants to retain its strong sense of community and country lifestyle. Maintaining the level of safety and where possible increasing this aspect of the Shire is a desired outcome.

Major Capital Projects

Action	Overall Performance Comment	Action Status
<p><u>Oakford Bush Fire Brigade Station</u></p> <p>Deliver the new Oakford Volunteer Bush Fire Brigade station building (subject to final funding and scope approval)</p>	<p>This project has remained in pre-project phase, given that sufficient funds had not been committed by the Department of Fire and Emergency Services (DFES), to deliver the project. This was due to cost escalations that had occurred, and that the original self-supporting loan offer made to the Shire was shown to be inadequate to deliver the project. In the reporting period, DFES agreed to increase its offer of a self supporting loan to fund the project and a report will be presented to Council for its consideration and direction at the October OCM. Following this, finalisation of funding can occur and the project can enter the imitation stage in accordance with the Shire's project management framework. Necessary updates to the Corporate Business Plan will be made once this occurs.</p>	<p>● On Track</p>

<p><u>Nature Play Splash Park</u></p> <p>Finalise funding arrangements for a new Nature Play Splash Park in Byford.</p>	<p>In May 2022, Officers discussed the challenges of the Splash Park project with the Department Local Government, Sport and Cultural Industries and that the Shire has insufficient capacity to cover the shortfall in funding to complete the project within the terms of the agreement. It was suggested to the Shire that the current agreement could be repurposed for another recreational facility. Officers indicated that a Bike Pump Track could be a suitable alternative if the community and the State Government were in agreement.</p> <p>Given the funding constraints of the Splash Park Project in its current form, Officers have identified the options for Council to consider to progress the State Government election commitment and associated funding, a report has been prepared for Council's October OCM meeting.</p> <p>Following this, Officers will present the outcome to Department of Local Government, Sport and Cultural Industries.</p>	<p>● On Track</p>

<p><u>Asset Management and Maintenance (Facilities)</u></p>	<p>The Facilities team have received an increase in bookings for weddings that include the Briggs Pavilion, Oakford Community Hall, and St Pauls Church. We also have future bookings confirmed for next year.</p> <p>Bill Hicks and Oakford Community Hall continue to be a popular venue for casual and regular hirers and includes children's birthday parties, family gatherings and community classes. Due to limited facilities, the Facilities Maintenance team are exploring Shire Parks and Reserves that could potentially be used as a future bookable facility.</p> <p>Unfortunately, the Byford Tennis courts have experienced high levels of vandalism and theft. This includes regular damage to court nets and supporting poles. Also, we recently had the theft of a basketball backboard. The Facilities Maintenance team have been proactively inspecting the courts and performing prompt repairs to minimise the impact to our regular users. The Facilities Maintenance team are also looking at upgrading security and installation of CCTV to prevent further incidents. Furthermore, Facilities Maintenance are in the process of compiling a report for Council to recommend that the Facility is a secured and bookable facility only and booked through our booking system.</p> <p>The winter season has now concluded for our sporting groups with recent inspections conducted by both Facilities Maintenance and our Environmental Health officer identifying corrective actions for the clubs to address. Building Services	<p>The average days taken to determine a certified building application (predominantly dwellings) has risen from 4.94 in July to 7.7 days in September due to the vacancy of the Coordinator Building Services role at the end of July and the additional vacancy of the Development Services role at the end of August. The timeframe for determining uncertified applications (predominantly sheds, patio's and pools) has increased from 10.19 days in July to 19.1 days in September. Backfilling these vacancies in Q2 will be essential to ensure building applications are assessed in a timely manner.</p>	<p>● At Risk or Behind Target</p>

PLACE – A protected and enhanced natural, rural and built environment

Community feedback

The community value the country lifestyle which is underpinned by housing, the natural environment, families and community.

The community recognise and identify the beautiful landscape as precious. As the population continues to grow, as a result of development of the district, integration of the environment and residential development will be essential to maintain the character of the district

Aspirations and opportunities

Survey respondents understand planning for the future is important for solving existing and future issues. They recognise the value of good design and hope future developments positively respond to the natural environment.

Conservation of natural vegetation is important as the landscape offers an opportunity to promote the Shire as a 'trails hub'.
