MAZZINI, Courtney

As a pre-service secondary teacher with a young family, I understand what is important in our North Ward.

I wish to see the Shire work closer with local schools and community groups to deliver programs that see true positive change. Well nurtured children grow into respectful adults; the key in sustaining a kind-hearted community.

Senior programs must be expanded with increased funding and more diverse initiatives.

Developers should be made accountable for the park quality that is promised.

Shire planning decisions need to have the environment at forefront of mind.

Road maintenance: a paramount priority.

Byford deserves a fair equitable rating system. We must even the playing field.

Let me be the North Ward's breath of fresh air, representing you and your family to the best of my ability.
