Response	Open-Ended Response	Open-Ended Response	Open-Ended Response
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.			
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The size and space to exercise our elderly large dog away from other dogs and people when she wants a quieter walk	Walking our dog morning and night	More lighting for later or earlier walks / activities in the park
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Its a great spot for the community but dogs should be on leads as it is not fenced.	To walk my dogs on leads, and attend community events.	BBQs for people to use.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	It is a family park for the kids and dogs. The kids can play whilst I walk around with the dogs	Walking the dogs and spending time with the kids there too	Move the bins away from the kids play area. Keep the dog stations stocked with poo bags, they run out all the time and put some barbecues there
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The size	Running and dog exercise	Lights for night time use
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The space for walking and cycling. I do like to walk my dogs on a lead there.	Walking, kicking the football, riding bikes, waking dogs.	Basketball half courts, more shade.
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	It is close.	I do not use at this stage as my dog cannot be off lead as yet	N/A
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Park, security.	Playground, kids play footy/soccer on field.	More shaded areas.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	It is close to where I live	Exercise. Walking. Relaxing	Sporting facility and better parking. Get rid of the ugly swale drain.
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.			
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The nice large size of the park, the paths for walking and jogging and the previous Dinner At Dusk food truck events.	We regularly use the playground and walk our dog around the park. We also occasionally run around the park, use the AFL goals and exercise equipment.	It's seems is if the shire had lots of good ideas to implement into Bill Hicks but possibly had too many. Part AFL field, part soccer field (which intersects with the AFL field), part children's playground, part exercise area, part hall and party area and an off lead dog area. All great things but all at the one park? Do we want dogs running around with lots of children and people exercising and having parties? The park is also very close to roads on all sides and dogs can easily go onto the road. I continue to support the area as an off lead dog exercise area however, as the new park is way too small and only suited to small dogs. The dog exercise equipment takes up most of the space. Seems a missed opportunity due to the space available there.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	open space	sporting activities with my family	seated areas, extra bbqs
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Can spend good time here with my kids.	Kids activities	Area not to be used for dogs as currently we facing problem due to dog waste lying all over. People don't clean after their dog (not all).
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The ability to throw a ball/fizbee and to be able to have my dog to have a long distance to run Also the ability to have a paved running track where i can run with my dog where i am not tripping over a lead	Fitness for me and my dog. Allowing my kids to play in the play equipment while throwing the ball for my dog. Enabling my dog to have large and long free running space	Leave it as is
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The walking path that circles around it.	Daily walking	A BBQ area would be nice
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	It is my local reserve so I value the recreational opportunities for my young children, including the playground and opportunities for riding bikes and scooters, and to learn ball skills	I have two young (preschool) children so use the playground, the path for riding bikes, scooters etc, and the grass for learning ball skills	My older (preschool) son no longer wants to go to the park as he is scared of dogs following incidents with barking and being knocked over. If dog owners want to use the park, they need to either keep their dog on a leash or be fully confident of their ability to keep their dog under effective control at all times. Many young families use the area for recreation, and I have observed fewer young children at the times when dogs are most frequent.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Park land	With dog	More trees Planted
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	the shire needs dog exercise areas	for walking	Nil
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The size of the area as my dog does 5km runs there 2 to 3 times a week. The new park is way too small for large active dogs.	My kids play at the playground and I use the area for physical training for myself and my dog	Add BBQs!!! Would love to see more playground for older kids like a teenage parkour area
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Playground. Grassed area	Playground	Bigger playground....byford has a lot of shitty little playgrounds but not 1 decent decent enough one to have a bbq t with the kids. With so many young families its rediculous we all have to go to Haynes or Kwinana
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The space for children to play	My children love to play here, but my youngest is petrified of dogs and if they are off lead we do not stay.	By making it that dogs must remain on-lead. As someone with an allergy to certain dogs. I do not need dogs running up to me that i am not familiar with. My daughter is also scared of dogs and majority of dogs will run up to her if off lead.
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Children safety	Children and dogs	Low fencing around the whole reserve for young child and dog safety given the level of traffic on plaistowe blv
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	large open space	exercise my dog and collect rubbish	I find it adequate
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The ability for energetic dogs to enjoy the large open space by running around the park, often with their families.	Park with my kids and friends and their dogs and exercise classes	Large covered water and nature playground for kids of all ages to enjoy
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The open green space	Variety of recreational activities.	More recreation equipment eg. volleyball, ultimate frisbee
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Open Space & Playground	Exercise, Picnics and playground	BBQ, more parking & shade cloths
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Off leash part	Let my dogs run	Nups
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The off lead dog exercise area has the park more family oriented and safe for children and dog owners to use. Itâ€™s comforting to know I can take my dogs there and itâ€™s been close proximity to my house and not near a main road.	For walks every morning with my dogs.	Topping up the dog poo bags on a regular basis. For a space that is dedicated to dogs, there are rarely any dog poo bags. If you change the park from off lead it will encourage more anti social behaviour from Porca and his associates. He already allows his children and friends to drive their quad parks all over the park. I fear that if this was no longer a friendly space for dogs he will take advantage and continue to damage the park and encourage more anti social behaviour. It's bad enough that only the police are allowed to intervene when trying to manage his behaviour because of what he did to the people who work for the shire.
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Play area,toilets and the gym	Kids play in the playground,socialise with adults and team sports	An undercover area not with sails that is present,keeping the toilets open,utilising the area during summer holidays for fun kids activities
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	My dog being able to run around with my kids, and have a bit of an explore. Its family friendly, i can chill and play with my dog while kids play in the park	For my kelpie to run around and meet friends, and my kids to run around with dog snd play in playground	Water fountains for kids. Waste bahs for dogs to be refilled more often.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Size	Running	Public toilet

I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Having a place to take my doggo and hopefully doggos to play and socialise with other dogs. Its also important that I'm able to do this safely in an enclosed area.	I havent yet but would like too when our doggo is ready	not surep
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Perfect spot for dogs to meet other furs :D	Its safe place for dog to get their own freedom of running	none
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.			
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The off leash dog area, It's great for a play to take the dogs, people are always responsible with their animals and in the year I've been using it I've only ever came across one poop that hasn't been picked up by an owner	As an off leash dog park, as well as an area to exercise and train	Another poop bag dispenser for dogs
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	kids being able to play freely	kids use the playground	fenced area around the play equipment
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The playground & the playing field for children to kick their footys etc. Not the best for them with dogs freely running around		
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Childrens playground.	Flying a kite and children playing	
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.			
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Open space used by all families, dog lovers and groups	Relaxing walk allowing dogs off lead when not too many other dogs around and children	Better grass management seems to be many ground weeds and bare patches when weather gets hotter. Maybe also relocate the footy posts to be more central and add footy posts other end of ground so can have footy oval east west. Soccer posts can be moved 90 deg so run north south. Also doggie bags aren't replaced often many weeks go by without replacement. None there at moment
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Play space for people and children	The playground equipment with my toddlers	On lead dog area so no worry of dogs running up to children- now that there is an alternative
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	There are many sports, fitness groups and families that use the space and should still be able to.	Fitness groups and personal fitness.	No off lead dogs, I've been run up to multiple times. There's no fence so owners who don't control their dogs could cause accidents so its easier to keep it on lead. And install dog bags and bins because people obviously find it w at too hard to provide their own bags for cleaning up after dogs. They just leave it there in the grass for everyone else to find
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The playground with toilets. The only other playground with toilets in Byford is on the hwy and therefore unsuitable for small kids.	I used to take the kids there to run around and play. They're scared of off leash dogs so I don't use the park anymore.	Don't let there be off leash dogs there. This park was really well used by families with young kids and the Indian community used to have social sport games there. It's sad that somehow dog owners managed to trump so many other community members.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The convenience to walk my dog off the lead.	Exercising my dog	
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The ability for sporting and team events	Walking, playground and fitness	More shade, a covered space to workout in rain and heat. Better goal posts.
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	It's a place you can go with family and friends to go, for kids to play who may not like dogs. Plus watch kids playing some sport without having to dodge dogs. You've built the dog park now make them use it and leave this reserve dog free.	I take my grandkids down there to play on the equipment and to run around, to enjoy the openness.	Keep dog's away.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Paths, lawn, but of native vegetation	Walked dog once. Found it too small a location, everyone still had dogs on lead, so put mine back on lead too.	It's too small an area for multi use. It becomes a very busy location at peak times. Not enough parking for visitors not from surrounding area, more suitable for local users only. Would strongly suggest fencing entire park to contain dogs and kids as it's bordered by road. all dogs at different levels of obedience, some more challenging than others, so safety for dogs easily distracted. Or fence park within and not path, for those still wanting on lead freedom and not to be disturbed by off lead dogs. Nowadays, a lot more reactive dogs around, owners need space to manage these without added stress, which is mainly keeping off lead dogs away from leashed dog to avoid drama.
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	We love going for walks around the park with our dog on her lead	Walking our dog around the park on her lead and our kids also love to play on the playground	Remove the off leash.....we love to take our dog for walks on her lead and dont want to worry about dogs whose owners can not control them.
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Able to have freedom to exercise	For exercise both for myself and my dog	Add one more bin with dog poo bags
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	The children have plenty of room to run Around.	With my children	Maybe more parking, and different stuff for the ground in the playground.
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	It is the perfect play ground and oval for kids to play sports etc	Kids play time, picnics, walking the dogs around the path	I feel it should be an on the leash park because countless times people's dogs have ran off and almost been hit by cars or chase someone's cat, and the amount of dogs that run over on to the play ground and scare some kids is insane. If you want to keep it an off leash park I recommend putting a fence around the perimeter with multiple access gates and a separate fence around the play ground that way you can have the best of both worlds so if someone's dog doesn't have a great recall it's not going to hurl straight to little kids on the play equipment
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	N/A	Walking through the middle grass areas with my dogs off lead, I don't let the dogs on or near the path as a lot of people seemed to be unaware they were in a dog friendly park and were scared to walk too closely to the dogs.	Putting up more signage to advise that people are now entering a off lead dog exercise area, I've seen this displayed at the riverside gardens in Bayswater.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Central to the estate with play area for children and large oval area for dogs to run and burn off energy.	Regularly used for children play and exercise running laps with my dog	The space is already cared for very well and has great facilities with the toilets and covered play area. It would be nice to have a BBQ available for public use. Also the doggy bags are often empty and take a while to be refilled.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Close to our home - easy walking distance	Mainly used as part of our walking regime.	Would like to see more lighting on the park
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Being able to park in one of the only 2 parking spaces (I have an acrod permit) and not have to walk any distance for my dogs to socialize.	I take my 2 dogs daily.	Add more proper parking
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	That it is somewhere you can take the munchkins to play & the pups to exercise	Pups, walking & playground	Nope
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Open area where children can run around and play without fear of dogs	We take our grandchild to the park and swing a lot. Also have used the pavilion for children parties	I thought we were getting a rock pool for the children and we wouldn't want dogs running through the it
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Bill Hicks is one of the good size park in Byford central.All local families and others from the different estate they are usually come and visit and spend time with their kids.For myself it's is very important park and close to my home.	I usually spend spare with my 2 years old daughter at kids play area.As well as in morning I do jogging and exercise.	I have experienced a couple of times when I was playing with kid at Bill Hicks park unattended dogs approach me and quickly I grabbed my baby and move into a safe place.I don't want to blame all dog owners but majority of them makes the park mess.So we wish make the park more clean and hygiene.

I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	I enjoy the open space. I like the new concept of the new dog area with obstacles but Bill Hicks is a different because the community, people and dogs can play together at the same time. It is very peaceful actually.	I walk my dog on lead on busy days and we enjoy watching the kids play footy, kicking ball. Many adults playing volley ball, soccer etc. I take my dog her off lead on quiet days or very early in the morning when no one is there.	I think council should leave it as is. The kids enjoy the play area as it is. I've know about the new kids area concept, but that is a waste of money that can be utilised elsewhere more needed. We don't want parking issues, and increase of traffic. Leave it as is
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	1) space for kids to play 2) playground for kids to play	1) exercise 2) recreational	1) install surveillance cameras against abuse of facilities and dog owners not cleaning up their dog poo. 2) Install basketball/tennis court/huge slide/climbing for older kids so they have something to play too.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	its a great open space for exercise for all people and animals. Awesome space for when the food trucks came and was a great community night	my kids kick the football around and play on play ground. meet up with friends. have an awesome night when the food trucks are there	down the price you charge the food vans so that more of them can come as its a great community night with great food
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	I often use this area for walking exercise how ever I feel I can only use it now late at nights because of the fear of dog attack.	I often use this area for walking exercise how ever I feel I can only use it now late at nights because of the fear of dog attack. I have been aggressively approach twice by dogs in the Park.	Keep the dogs "on lead" for this area.
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	I like the size and I would like to walk my dogs on the lead but don't like them off the lead	I walk my dogs every day but at 4 in the morning to avoid dogs off the lead because my dogs react and there is no fencing there so I would be scared they run on the road	Turn it back to what it was so dogs can't be off lead
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	It used to be a safe area but with dogs off the lead that see another dog and make a beeline for them I don't go near the park.	We used to use the play area and the field for soccer but don't go there anymore. People also don't pick up there poo which is disappointing. Some residents seem to think they can use the park for their quad bike and small trail bike use.	have the rangers patrol a bit more. The playground seems to attract older kids swearing and being a nuisance.
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Playground, exercise area, footpath/cycle path around the reserve, toilet block.	Playground, bike riding, oval for ball sports	BBQ area, water fountains at either end
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	It is used by a variety of people, exercise groups, children, walkers, sports	I walk and take my grandchildren to play there when they visit	Get the dogs back on a lead. I walked around the boundary path yesterday and counted 14 dog messes that had not ben cleaned up, this is where children want to play and ride scooters and bikes. I also like to walk my dogs there, and I prefer to keep them on a lead, there have been occasions where dogs off lead have caused a problem. also many of the walkers in the evening are from a variety of ethnic backgrounds, many of which are afraid of, or do not like dogs.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Close to home can take my dog for a walk let him have a run with nice green grass and space.	I have a small dog so for an extra run close to home	
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Community meeting space for kids and parents as well as local sporting groups to play. (Soccer, Volleyball regularly) Not to mention an amazing space for the Food Trucks!	Kids play and casual exercise	Fixing the water fountain would be amazing, as well as a BBQ space on the West end of the area where the table and chairs are.
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	that it should be a family /children sporting and play area	riding,scootering,ball games,play grounds,exercise equipment	increase the play equipment and maintain the equipment as there is rust every where there and remove the wood chips and replace it with astro soft fall or sand
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	I have two ageing dogs who cannot walk very far. The BH reserve is close to my home and not too busy so my dogs can potter around at leisure enjoying all the good smells.	I use this space regularly for my own running training and with my dogs off lease at least 4 times a week.	Personally I think the playground area should be fenced to prevent dogs and children coming together.
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	It is very convenient for me to walk and exercise my little dog I am not happy with the owners of larger dogs as they do not pick up after their dogs they just walk off and leave the dogs business and when tackled about not picking up they become abusive	I walk my dog every morning in the park	Rangers should clamp down on the people that don't pick up after their dogs
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Play area & excersize area	Kids play and I walk/excersize	More shaded areas
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Wide spaces to throw a ball for a dog without getting in the way of others doing the same thing	Walking, throwing ball for my dog, jogging, kicking footy	A functioning tap for dog drinking bowl
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	Great park with multi activitys available	Off lead dog park	A functioning tap for dog drinking. Always breaking
I do not support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	safe to walk	walk, throw a ball	no dogs
I support Bill Hicks Reserve remaining as an Off Lead Dog Exercise area.	It has a play area for the children as well as being able to walk the dogs	I walk my dogs and allow them off leash whilst the kids are in the playground	make sure the dog stations are stocked with bags at all times. They run out all the time and sometimes it can be for 2-3 weeks
