	1	We have no objections to the proposal	Noted	No further Action
	2	<p>We purchased this property just over a year ago for its clear open aspect and now we find Telstra wants to put up a massive concrete phone tower right next to our front entrance.</p> <p>As there are phone towers already in place to the north and south, within line of sight of our house I don't see a need for any more towers to be constructed.</p>	Noted - comments addressed in the report.
