Repair Cafés are free meeting places where the community can work together to repair things. In the place where the repair café is located, you'll find tools and materials to help you make any repairs you need. You'll find experts in various fields such as clothing repairs, electrical, bicycles, crockery, toys and more. Visitors to the café bring broken items from home and together with the volunteer experts, start to make repairs.

We throw vast amounts of stuff away, even things with almost nothing wrong. Many people have forgotten that they can repair things themselves or they no longer know how. Knowing how to make repairs is a skill quickly lost. Society doesn't always show much appreciation for the people who still have this practical knowledge and they are often left on the sidelines within a community.

Application for Fee Waiver or Fee Reduction of Facility Hire Fees

The Repair Café changes all that! People who might otherwise be sidelined are getting involved again. Valuable practical knowledge is getting passed on. Things are being used for longer and don't have to thrown away. This reduces the volume of raw materials and energy needed to make new products. It cuts CO2 emissions, for example, because manufacturing new products and recycling old ones causes CO2 to be released.

The Repair Café teaches people to see their possessions in a new light and to once again, appreciate their value. The Repair Café changes peoples mindset. This is essential to kindle people's enthusiasm for a sustainable society.

How will the Community benefit by waiving fees?

Repair Café has a number of aims:

1. Reintroducing the art of repairing to modern, local communities
2. Retaining and spreading repair knowledge and skills
3. Promote social cohesion by bringing together neighbours from very different backgrounds and motives in a setting of inspiring and accessible meetings
4. Environmental sustainability

Not only is there benefit from a visitor/ repairer relationship but also repairer/ repairer. Like-minded people in the community coming together to share knowledge and having fun doing it while at the same time reducing the environmental impact by reducing items being sent to landfill.

What are the current and/or estimated membership and/or attendance numbers? What fees if any are the attendees charged?

50-100 attendees

There will be no charge to people attending this event

What can your club/organisation implement to ensure that the club can pay for future hire fees and charges?

We are providing a service to the community that coincides with our own and the SJ Shire's KPI's for community engagement.

We also advertise and thank the SJ Shire for the use of the facilities through Social Media and all other marketing material distributed to our members, followers and the wider community.

The JCC will be taking this opportunity to say thank you to our volunteers and members for their contributions and support to both the JCC and the Jarrahdale community.

As the SJ Shire is well aware it is important to thank those that freely give their time and efforts into bettering our community. Not only so they know they are appreciated but also, so the community knows who is responsible for making these community initiatives, projects and events come to life.

The JCC will be supplying light food and drinks. We will be inviting key representatives from the SJ Shire and local community groups. The event will be run through the JCC members time in kind.
