WEST PERTH WA 6874

By email at [REDACTED]@[permacast.com.au](mailto:[REDACTED]@permacast.com.au)

Dear Mr Ferraro

ENVIRONMENTAL PROTECTION NOTICE 202313 – REMOVAL OF RESTRICTED AREA

Further to the Environmental Prevention Notice 202313 (EPN) issued to Polevine Pty Ltd (Polevine) on 14 November 2023, the Department of Water and Environmental Regulation (DWER) has been provided with your proposal for emission controls and noise data from tests of 'stressing bed 4', conducted on 1, 15 and 22 November 2023.

After a review of this information and analysis of noise monitoring data completed by DWER, I am satisfied that suitable noise mitigation and emission controls have been implemented by Polevine to ensure noise levels are within the assigned levels and in compliance with the *Environmental Protection (Noise) Regulations 1997* (Noise Regulations).

This is evidenced by the analysis of noise data from the second test on 15 November 2023 that achieved compliance with the assigned noise levels specified in the Noise Regulations.

Therefore, I confirm that Requirement 4.2.1 of the EPN has been satisfied and from the date of this letter and pursuant to Requirement 4.2.2, the Restricted Area specified in Requirement 2 no longer applies. This in effect removes the need to comply with Requirement 5 of the EPN relating to testing.

Please note that all other requirements of the EPN remain unchanged and must be complied with, including but not limited to, Requirement 2 that assigned levels under the Noise Regulations must be complied with and Requirement 3 regarding hours of operation.

Prime House, 8 Davidson Terrace Joondalup Western Australia 6027
