Unit Information There are 2 assessment tasks for this unit of competency			Assessment Outcome
Assessment 1	Knowledge Assessment		S
Assessment 2	Project		S
Overall Assessment outcome for this UoC			C
<p>Summary of Assessment Outcomes: Lauren, you have provided the required evidence and demonstrated throughout this unit the depth of your knowledge as required to meet the performance criteria to be deemed competent. You have provided examples in your responses of the legislation that enables the community to participate in the Council's decision-making process and where the Act sets the framework for community engagement. You have very clearly explained scenarios where you have assisted community groups work through issues that required clarification of roles and responsibilities, such as the Serpentine Jarrahdale Residents and Ratepayers Association and the Keirnan Park Stakeholder Group. You have identified how you applied your communication, listening and leadership skills to represent the community in the decision-making process, and clarifying your role and that of council. You have demonstrated your knowledge of community engagement, the purpose, and possible risks, outlined the process for developing the Strategic Community Plan and reviewing how best to communicate with the wider diverse community. Your concern re consultation fatigue and addressing how this can be improved has merit. Congratulations on successfully completing Build and maintain community relationships.</p>			
If NYC: I have informed the candidate of the outcome and advised to re-enrol for this UoC.			
<p>Assessor Declaration: I declare that I have:</p> <p><input checked="" type="checkbox"/> Conducted the assessment following the principles of assessment and collected the evidence following the rules of evidence.</p> <p><input checked="" type="checkbox"/> I have provided feedback of the Unit Assessment Result in writing to the candidate.</p>
