

# Council Policy 2.1.11 – Street Lighting

- Objectives:** Place
- Outcome:** 2.2 - A sustainable natural environment.
- Strategy:** 2.2.2 - Seek to minimise resource usage and continue to maximise reuse opportunities.

## Purpose

The Council recognises that because of the diversity within the Shire there are different requirements for street lighting in different land use zones. This policy is to determine the standards for street lighting supported by Council and relevant conditions.

## Definitions

Not applicable

## Policy

1. Street lighting in different areas
  - Urban areas are to be supplied with street lights.
  - Rural areas will be given special consideration on request.
  - New Urban and Rural Living “A” subdivisions shall include provision of street lighting by the developer.
  - Footpaths, walkways and pedestrian trails constructed within urban areas should be suitably illuminated.
2. Energy Saving Technology

Council shall encourage the utilisation of best practice energy saving technology for street lighting throughout the Shire.
3. Solar Power

Council supports and encourages the use of solar power where practical.
