Hi Prad,

Thank you for the quick reply.

Of course, the City will ensure that the Shire will be able to review and give input into the design and delivery. SJ approval of plans will be hold point for the City.

I can also confirm that the SJ finding will be the same as MRWA funding milestones (40% initial, 80% expenditure and final payment)

Looking forward to getting a great outcome for both the City and the Shire.

Kind Regards,

Hi Mathew,

Thank you for providing the information to our consideration.

I have presented the proposal to our Director Infrastructure Services and CEO. They are happy to proceed with the proposed black spot project and contribute the funding so that project can be delivered.

Also, we would like to confirm the following with City of Armadale for the project delivery.

- SJ to be involved in reviewing/commenting/approving design drawings
- SJ funding contributions timing will be as per MRWA funding milestones

Please confirm the above conditions in writing prior to proceed with black spot submission.

Happy to work together in more works in near future.

Regards;

**Prad Maha**

**Subject:** Nicholson - Rowley intersection Blackspot Application - CoA seeking Shire SJ support

Hi Prad

Following our recent discussion regarding the Nicholson Rd and Rowley intersections, I can now provide further details and I am seeking to receive written support from the Shire for the submission a blackspot application

Please see attached for all concept plans, costing and draft BS application.

There will be a 50/50 split of the non-funded portion between the City and the Shire (assuming State BS funding) – Should Federal funding be received or full state funding become available – this will eliminate the Shires contribution.

2022/23	SJ Shire 50% share Yr 1 – Design, Land Acq	25,250
---------	--	--------

2023/24	SJ Shire 50% share Yr 2 – Construction	256,570
---------	--	---------

It is proposed that the City will take the lead in design and construction, however we will ensure that the Shire is included in all major decision making and will provide regular updates.

Given that B/S applications are due on the 9<sup>th</sup> July, can you please provide your written support (email will do) prior to the 6<sup>th</sup> July.

*Kind Regards,*
