

General Conversations with SJLF committee, some ( not many) Leisure village residents, indicate their routines suit being out and about in the morning home in the afternoon , Keysbrook residents and a few library customers from M J and S what the service available at a time when they feel they need it across the day , no set routines often visit at a time on way to or from else where especially for living further way , combine their visit to places in one outing

Evaluation of the service after 6, 12 months and two years will indicate growth or reduction of service. Ongoing evaluation (stats, feedback) will indicate modification of the service with operating hours, days and types of service

Shire facility with internet – which ones? There is an opportunity to also include access to computer and internet services (in locations where an internet connection is available); would benefit much of the southern communities who have problems for several years. Need info on areas with poor internet coverage. Customers require scanning, emailing, computers access plus copying and printing, or borrowing or other aspects at a time that suits them, not just when we are there.
