Unknown- through Communications Team	1	<p>Why is another dog park being built in Byford? They already have at least one I know of near the horse training area in Byford. What about serpentine or Mundijong, people out here have dogs and no park to take them to unless they want to drive all the way over to Byford, it would be closer for me to use Baldivis dog park and cross shires.</p>	<p>Thank you for your enquiry.</p> <p>This dog park is being implemented by the Developer as a response to community requests for a dog park to be in the area.</p> <p>There is currently two dog exercise areas in Byford and one in Jarrahdale.</p> <p>The current exercise areas have been implemented due to a multitude of factors including available locations, public demand and amount of dogs registered in the area.</p> <p>The request for dog exercise areas is significantly lower in rural areas or areas with larger block sizes in comparison to Byford, where the average block size is approximately 350m².</p> <p>If public demand was prevalent for another area, Shire would consider these requests upon receipt.</p> <p>Thank you again for your enquiry.</p>	<p>Consider implementing a park at Whitby in the future once built up - currently residents utilise the vacant Developer land not developed as yet.</p>
Lyndal Forward	2	<p>I think it's a great idea. I would like to see BBQ areas and tables. I don't have animals, as property is too small. I'd also like to enjoy the area with friends and family as we live right onto the park.</p>	<p>Thank you for your submission regarding the proposed dog exercise area on Tourmaline Boulevard, Byford.</p>	<p>No action required</p>

NEW SUMMARY OF SUBMISSIONS

			Kind regards,	
Tanya and Edward Street	3	All ok to go ahead with us	N/A	N/A
Michael Anthony	4	Great idea, but there should be at least 2 security cameras installed to monitor the park. Not because of the recent murder, but because dog parks generally generate allot of attacks from all the dogs, and owners don't always take responsibility.	<p>Thank you for taking the time to provide feedback in relation to the dog park.</p> <p>I have noted the request for CCTV at the park and I will pass this onto the Developer for consideration, as LWP may be able to implement the CCTV</p> <p>After 2 years the park will be handed to the Shire for control and maintenance, at this point the Shire can consider installation of CCTV.</p> <p>The dog park on Larsen Road was built by the Shire which has CCTV on site and has proved to be a valuable tool for many issues, ranging from dog complaints, Off-road vehicle use and police matters including antisocial behaviour.</p> <p>Often the reported "Dog attacks" at dog parks are classed as dog fights within a dog exercise area as, from my experience, the evidence gained showed both dogs were engaging in the fight, both are off</p>	<p>Contacted LWP(Developer) and provide the feedback.</p> <p>The Shire can consider CCTV – while it is a great asset to the Community Safety Team, the cameras often don't prevent or assist with "dog fights" in dog parks.</p>

		ball. Parking, poop bags and water available on site. Trees for shade.	proposed park and trees, of unknown height, being planted.	
Unknown/Online	7	I am also a qualified vet nurse and reactive dog trainer. Which is why I have the following ideas in mind: I'd like to see this park become more of a sensory experience for dogs than filled with agility equipment. 10 minutes of sniffing is equal to 50 minutes of physical exertion. This leaves dogs mentally tired and able to rest better in their home environment. This results in less displacement behaviours eg barking, digging, destructiveness. The area would have 3 separate spots for dogs, with some areas screen covered between each section to prevent fence guarding. 2 separate gates for entering or leaving. Especially lots of bushes, hills, and natural obstacles to wander around. Priority being to create an experience over being to socialise masses of dogs because more often than not the social experience at parks is stressful for the dog, risking fights and bites. I personally enjoy the park when there aren't other dogs because then I set up my own experience for them. However if the park were designed like many other fenced parks, I fear I would no longer be able to use it due to becoming very busy much like the Bark Park. Sensory ideas: Plants such as rosemary, lavender, thyme, basil, lemongrass,	The area has multiple plants and ground coverings including mulch, sand, blue metal, grass and concrete paths. The two areas have separate entry points, double gated to allow easy re-leashing Water fountain for people and dogs provided.	Continue with plan supplied by Developer.

NEW SUMMARY OF SUBMISSIONS
Lot 8053 Tourmaline Boulevard / Proposed Dog Exercise Area /P13161

Submitter	No	Submitter Comments	Officer Comment	Officer Recommendation
		<p>valerian are all great options for dogs providing both smell and taste. Textures such as sand, formal paths, trails, mulch, aggregate, a shallow (hollowed space) as a pool for summer. Trees and bushes to brush up against, bamboo is an easy to grow and loved one for this. A tough ground cover to lay or roll in. Rocks and logs, varying heights for dogs, the tunnel areas (such as is already there), add a mound of dirt and grass ovetop of it. To add levels to the park area. Would love to see water fountains for both human and dogs to use at more of the parks in the shire too. For on lead dogs which don't or cannot use the off leash parks. I live nearby the Tourmaline Blvd park lot. This would be the park I would use.</p>		
Unknown/Online	8	<p>It would be great to have a small area made for one dog/family only for those reactive or non dog social dogs to enjoy.</p>	<p>There will be the opportunity for local groups to hire a portion of the exercise area for dog training and similar exercises, this is currently proposed for weekends and for two hours maximum per weekend day.</p>	<p>Bookings for individuals does not appear to be feasible due to policing of individual booking would be labour intensive for facilities to police – bookings for local groups such as training recommended only.</p>

Submitter	No	Submitter Comments	Officer Comment	Officer Recommendation
Unknown/Online	9	Please please consider a medium area too! My poor dog gets trampled by the big dogs mastiffs etc. yet he's too big for the small area where we bring our Westie. I have to drive to Kelmscott or the beach to walk/exercise him. Many thanks Martina mom of two fur babies	The location does not allow for three areas, this would not leave sufficient room for exercise of all dogs. Large dogs should not be trampling any dogs, request reports of uncontrolled dogs be reported to the Ranger Team.	Continue with plan supplied by Developer.
Unknown/Online	10	Access to water, under cover area when it rains and things for them to play on. A sandpit is always a good option and disposable poop bags.	Water for people and dogs supplied, patio is being implemented for people at the park and agility items being installed at the park. Bins and poo bags provided.	Continue with plan supplied by Developer.
Unknown/Online	11	It would be great if it was possible for there to be the option in off peak periods for people to be able to book a time for nervous dogs to use the park solo. ie. in the evenings after dark or work hours. Lots of larger or rescue dogs in the Shire that would use the exercise space but aren't suitable to be let off lead with strange dogs. Could do it in small sessions with five mins between bookings so there's time for one dog to leave before the next one arrives.	There will be the opportunity for local groups to hire a portion of the exercise area for dog training and similar exercises, this is currently proposed for weekends and for two hours maximum per weekend day.	Bookings for individuals does not appear to be feasible due to policing of individual booking would be labour intensive for facilities to police – bookings for local groups such as training recommended only.
Unknown/Online	12	Would like to see lighting included in the park so it can be used in the evening say from 7pm-10pm and lights switching off after that time	Ambient lighting from the street lights will be present. Additional lighting within the park would only encourage use at night	Continue with plan supplied by Developer.

Submitter	No	Submitter Comments	Officer Comment	Officer Recommendation
			<p>Bins and poo bags provided (believed to be standard park open bin).</p> <p>Bench and table provided under a proposed patio area within the exercise area.</p>	
Unknown/Online	30	<p>I think it would be good to also have a small fenced area to be able to run a reactive dog on its own, this will help to socialise it in a safe fenced environment away from there. The dog park on Larsen Rd has a small introduction zone which is great. Not everyone has a dog that can be off lead with other dogs and not all dogs get along as some boisterous and larger dogs can be too much for some. The separate zone is a good idea, that way more people can use the area.</p> <p>As more people are adopting rescues, these dogs often have a traumatic past and take more time to get used to other dogs. Or they have a Greyhound like me that sadly can never be run with other dogs, but he still needs to be able to have a run safe away from other dogs.</p>	There is an "Air lock" type fencing to both entries. Introductions can be done here.	Continue with plan supplied by Developer.
Unknown/Online	31	Please add a reactive dog zone area to the new dog park, like the one on Larson Road Byford.	There is an "Air lock" type fencing to both entries. Introductions can be done here.	Continue with plan supplied by Developer.

Submitter	No	Submitter Comments	Officer Comment	Officer Recommendation
Unknown/Online	32	<p>There is not enough parking in this suggested plan. If you look at the Byford Bark Park which has a lot more parking even this at peak times overflows with people parking on the grass and in the road leading up to it. Already the parking spots are used by residents (not by myself but I live right across the road from the proposed area and witness this daily). They are often already full without people wanting to use a dog park, 6 parking bays is not enough when 3 of those are used by local residents to store their cars guaranteed daily let alone often being full for people visiting homes close by. You cannot expect everyone in the area to just walk to this dog park. This will result in people parking on the road causing safety concerns, only to be worsened once Tourmaline is connected to Orton Road in the future and will likely be a main route for a lot of traffic as it will be the first entry point into The Glades off Tonkin Highway. Also concerning is how it will be monitored. There should be cameras and scheduled daily visits from the Ranger daily to make sure people are doing the right thing. As a father who will soon have 2 small children, I worry about having my kids out in the front yard and an off-lead dog running over and attacking them. Cameras would add to being a deterrent for people doing the wrong thing, along with signs stating the</p>	<p>The Byford Bark Park was designed and constructed as a 'district' sized space. Whereas this Glades dog park is designed more as a local park, for local residents to walk their dog to the park.</p> <p>There will be the added road bays and existing road bays combined with road parking.</p> <p>Vehicles abandoned or left longer than 24 hours should be reported to the Shire for action.</p> <p>Cameras are being considered by the Developer.</p> <p>Ranger Services already patrol many areas including the current dog parks, any issues sighted should be reported to the Shire at the time.</p> <p>Dogs are required to be leashed once leaving the fenced area.</p>	<p>Continue with plan supplied by Developer.</p> <p>Developer considering the feasibility of CCTV.</p>

Unknown/Online	41	I love this idea and fully support the opening of a local dog park! I especially like the idea of a separated by fence are for larger and smaller dogs so everyone is safe.	Thanks	N/A
Unknown/Online	42	Sectioned into three different areas - large, medium and small breeds with equal space between the three areas. It would be beneficial to have jumps, ramps, tunnels; for the dogs to play in.	<p>Agility items are included for dogs to play on.</p> <p>There will be two areas, one for large dogs and one for small dogs, both having an “airlock” type gate set up to allow introduction of dogs and unleashing and re-leashing.</p> <p>Three areas not feasible with the area allocation.</p>	Continue with plan supplied by Developer.
Unknown/Online	43	We live two blocks away from the proposed dog park. We do have a dog but we do have kids as well. We were disappointed when at first it was supposed to be a playground then changed to dog park. We are happy if it will be playground with toilet instead of a dog park.	<p>Unsure of Developer’s initial plans for a Park – community feedback gained by the Developer was why this was considered as a dog exercise area.</p> <p>However, I note the park bounded by Undata Vista and Albizia Grove, which is approximately 500m from this proposed park, where they have BBQ facilities, shaded seating, a basketball court and a shaded playground.</p>	Continue with plan supplied by Developer.

Unknown/Online	44	Coffee shop Toilets Dog wet area - shallow pool Bigger water bowls in multiple areas of the park More bins Under cover section	<p>As this is proposed to be a dog exercise area to the southern end, coffee shop facilities in close proximity to the dog park is not advisable for health and safety reasons.</p> <p>However, I note the park bounded by Undata Vista and Albizia Grove, which is approximately 500m from this proposed park, where they have BBQ facilities, shaded seating, a basketball court and a shaded playground.</p> <p>Bins and poo bags provided.</p> <p>Bench and table provided under a proposed patio area within the exercise area.</p> <p>One drinking water station outside the off lead area for people and dogs.</p> <p>A pool area appears likely a risk due to pool fencing area requirements and drowning risk to both dogs and humans.</p> <p>Due to the cost and maintenance of these facilities, the installation of toilets on a small reserve is not feasible.</p>	Continue with plan supplied by Developer.
Unknown/Online	45	Ryder would love another dog park to play in!	Thanks	N/A

Unknown/Online	46	Public toilets added in would be nice.	Due to the cost and maintenance of these facilities, the installation of toilets on a small reserve is not feasible.	Continue with plan supplied by Developer.
