Significant Tree Register – Assessment Report – ST 110

Registry number: ST 110
Species: *Eucalyptus grandis* (Flooded Gum/ Rose Gum) of NSW origin
Number of trees: 1

Height: 30 m
DBH (trunk diameter at 120cm): 195.5 cm
Canopy diameter: 28 m
Estimated age: 80-100 years

Address: Whitby area
Location description: withheld
GPS coordinates: withheld

Landowner: withheld
Category of significance: 1 (beauty), 2 (size) and 3 (age).
Reasons for inclusion: Very large and beautiful tree
Risk assessment: On boundary and therefore threatened by fence replacement, has dropped 1 large branch in 23 years.
Recommendation: Include on Register because:

1) **Extremely large, old tree**
2) **Very attractive, large tree**

Significant Tree Register – Assessment Report – ST 111

Registry number: ST 111
Species: *Eucalyptus marginata* (Jarrah)
Number of trees: 1

Height: 15 m
DBH: 188 cm
Canopy diameter: 18 m
Estimated age: 448 years

Address: Keirnan Street, Mundijong
Location description: Situated on verge of Keirnan Street across from the junction with Baskerville Road.
GPS coordinates: -32.28231 S, 115.98406 E

Landowner: Shire of Serpentine Jarrahdale
Nominator: Shire officer
Category of significance: 2 (size) and 3 (age).
Reasons for inclusion: Very large, old tree with high habitat value which is significant within the landscape.
Risk assessment: Recent loss of large limb, crown thinning with some dead branches. Threatened by road widening or development to the north.
Recommendation: Include on Register because:

1. **Extremely large, old tree**
2. **High habitat value with many hollow branches**
3. **Significant in landscape**
