

# THE BARN (Indoor Stable)

Some properties have an area that has multiple uses. Sometimes there are different rooms located within existing stables, but sometimes there are areas specifically built to address the required needs.

Within this shed is the following spaces that have been specifically created for the management and maintenance of horses;

## **Wash bays (internal and external)**

The slabs are angled so that the water from the wash bays go outside and onto the lawn.

Rubber matting has been installed to ensure that the horses do not slip on the wet concrete.

## **Tack room**

This is lockable for the security of expensive equipment.

## **Feed room**

Where specific food for each horse is stored and made up.

## **Show preparation/ brushing bay**

Rubber matting has been installed to ensure that the horses do not slip on the cement.

## **Kitchen facility**

For the comfort of all humans.
