SHIRE OF SERPENTINE-JARRAHDAL
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2026

1 BASIS OF PREPARATION

The annual budget of the Shire of Serpentine-Jarrahdale which is a Class 2 local government is a forward looking document and has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the annual budget be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from *AASB 16 Leases* which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this annual budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the annual budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

The local government reporting entity

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this annual budget.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 12 to the annual budget.

2024/25 actual balances

Balances shown in this budget as 2024/25 Actual are estimates as forecast at the time of preparation of the annual budget and are subject to final adjustments.

Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

Rounding off figures

All figures shown in this statement are rounded to the nearest dollar.

Statement of Cashflows

Investing and financing transactions that do not require the use of cash or cash equivalents shall be excluded from a statement of cash flows. Such transactions shall be disclosed elsewhere in the financial statements in a way that provides all the relevant information about these investing and financing activities.

Initial application of accounting standards

During the budget year, the below revised Australian Accounting Standards and Interpretations are expected to be compiled, become mandatory and be applicable to its operations.

- *AASB 2020-1 Amendments to Australian Accounting Standards*
 - *Classification of Liabilities as Current or Non-current*
- *AASB 2022-5 Amendments to Australian Accounting Standards*
 - *Lease Liability in a Sale and Leaseback*
- *AASB 2022-6 Amendments to Australian Accounting Standards*
 - *Non-current Liabilities with Covenants*
- *AASB 2023-1 Amendments to Australian Accounting Standards*
 - *Supplier Finance Arrangements*
- *AASB 2023-3 Amendments to Australian Accounting Standards*
 - *Disclosure of Non-current Liabilities with Covenants: Tier 2*
- *AASB 2024-1 Amendments to Australian Accounting Standards*
 - *Supplier Finance Arrangements: Tier 2 Disclosures*

It is not expected these standards will have an impact on the annual budget.

- *AASB 2022-10 Amendments to Australian Accounting Standards*
 - *Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities*, became mandatory during the budget year. Amendments to *AASB 13 Fair Value Measurement* impacts the future determination of fair value when revaluing assets using the cost approach. Timing of future revaluations is defined by regulation 17A of *Local Government (Financial Management) Regulations 1996*. Impacts of this pronouncement are yet to be quantified and are dependent on the timing of future revaluations of asset classes. No material impact is expected in relation to the 2025-26 statutory budget.

New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- *AASB 2014-10 Amendments to Australian Accounting Standards*
 - *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
- *AASB 2024-4b Amendments to Australian Accounting Standards*
 - *Effective Date of Amendments to AASB 10 and AASB 128* [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]
- *AASB 2022-9 Amendments to Australian Accounting Standards*
 - *Insurance Contracts in the Public Sector*
- *AASB 2023-5 Amendments to Australian Accounting Standards*
 - *Lack of Exchangeability*
- *AASB 18 (FP) Presentation and Disclosure in Financial Statements*
 - (Appendix D) [for for-profit entities]
- *AASB 18 (NFP/super) Presentation and Disclosure in Financial Statements*
 - (Appendix D) [for not-for-profit and superannuation entities]
- *AASB 2024-2 Amendments to Australian Accounting Standards*
 - *Classification and Measurement of Financial Instruments*
- *AASB 2024-3 Amendments to Australian Accounting Standards*
 - *Standards – Annual Improvements Volume 11*

It is not expected these standards will have an impact on the annual budget.

Critical accounting estimates and judgements

The preparation of the annual budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
- Expected credit losses on financial assets
- Assets held for sale
- Impairment losses of non-financial assets
- Investment property
- Estimated useful life of intangible assets
- Measurement of employee benefits
- Measurement of provisions

The Shire did not raise specified area rates for the year ended 30th June 2026.

*Rateable Value at time of adopting budget.

All rateable properties within the district used predominately for non-rural purposes are rated according to their Gross Rental Valuation (GRV), all other properties are rated according to their Unimproved Valuation (UV).

The general rates detailed for the 2025/26 financial year have been determined by Council on the basis of raising the revenue required to meet the estimated deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than general rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum payments have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

(c) Objectives and Reasons for Differential Rating

To provide equity in the rating of properties across the Shire the following rate categories have been determined for the implementation of differential rating.

(i) Differential general rate

Description	Characteristics	Objects	Reasons
GRV Residential	Properties used for residential purpose.	This category covers all improved non-rural properties used for residential purpose and all improved non-rural properties.	The Shire's rating strategy is to achieve rate revenue that meets the shortfall from other revenue sources and allows for the delivery of services and the creation of infrastructure. The Shire desires to levy rates that are more equitable across different types of properties and thus has implemented differential rates.
GRV Commercial / Industrial	Non rural properties used for other purpose.	This category covers all improved non-rural properties that are used for a purpose other than residential.	The Shire's rating strategy is to achieve rate revenue that meets the shortfall from other revenue sources and allows for the delivery of services and the creation of infrastructure. The Shire desires to levy rates that are more equitable across different types of properties and thus has implemented differential rates.
UV General	All rural properties not covered by another rating category.	This category covers all rural properties not covered by another rating category	The Shire's rating strategy is to achieve rate revenue that meets the shortfall from other revenue sources and allows for the delivery of services and the creation of infrastructure. The Shire desires to levy rates that are more equitable across different types of properties and thus has implemented differential rates.
UV Rural Residential	All rural properties up to 50,000sqm whose predominant use is Residential	This category covers all rural properties up to 50,000sqm whose predominant use is Residential.	The Shire's rating strategy is to achieve rate revenue that meets the shortfall from other revenue sources and allows for the delivery of services and the creation of infrastructure. The Shire desires to levy rates that are more equitable across different types of properties and thus has implemented differential rates reflective of the costs associated with service delivery across the different rating categories.
UV Commercial/ Industrial	All rural properties used predominantly for commercial/industrial purpose, excluding those used for intensive agriculture.	This category covers all rural properties used predominantly for commercial/industrial purpose, excluding those used for intensive agriculture.	The Shire's rating strategy is to achieve rate revenue that meets the shortfall from other revenue sources and allows for the delivery of services and the creation of infrastructure. The Shire desires to levy rates that are more equitable across different types of properties and thus has implemented differential rates.
UV Intensive Farming	All rural properties used for intensive agriculture (e.g. poultry farms and feed lots).	This category covers all rural properties used for intensive agriculture (e.g. poultry farms and feed lots).	The Shire's rating strategy is to achieve rate revenue that meets the shortfall from other revenue sources and allows for the delivery of services and the creation of infrastructure. The Shire desires to levy rates that are more equitable across different types of properties and thus has implemented differential rates.

(ii) Differential Minimum Payment

GRV Residential	Properties used for residential purpose.	This category covers all improved non-rural properties used for residential purpose and all improved non-rural properties.	A minimum payment of \$1,513 has been imposed. The Shire's rating strategy is to achieve rate revenue that meets the shortfall from other revenue sources and allows for the delivery of services and the creation of infrastructure. The Shire desires to levy rates that are more equitable across different types of properties and thus has implemented differential rates.

3. NET CURRENT ASSETS

(e) MATERIAL ACCOUNTING POLICIES

CURRENT AND NON-CURRENT CLASSIFICATION

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

PREPAID RATES

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

INVENTORIES

General

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

SUPERANNUATION

The Shire contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

INVENTORY - LAND HELD FOR RESALE

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Inventory - land held for resale is classified as current except where it is held as non-current based on the Shire's intentions to release for sale.

GOODS AND SERVICES TAX (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

TRADE AND OTHER RECEIVABLES

Rates and statutory receivables

Rates and statutory receivables are non-contractual receivables arising from statutory requirements and include amounts due from ratepayers for unpaid rates and service charges and other statutory charges or fines.

Rates and statutory receivables are recognised when the taxable event has

Trade receivables

Trade receivables are amounts receivable from contractual arrangements with customers for goods sold, services performed or grants or contributions with sufficiently specific performance obligations or for the construction of recognisable non financial assets as part of the ordinary course of business.

Other receivables

Other receivables are amounts receivable from contractual arrangements with third parties other than contracts with customers and amounts received as grants for the construction of recognisable non financial assets.

Measurement

Trade and other receivables are recognised initially at the amount of the transaction price, unless they contain a significant financing component, and are to be recognised at fair value.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

PROVISIONS

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

EMPLOYEE BENEFITS

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the determination of the net current asset position.

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the determination of the net current asset position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least

MATERIAL ACCOUNTING POLICES

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

FINANCIAL ASSETS AT AMORTISED COST

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

MATERIAL ACCOUNTING POLICIES

RECOGNITION OF ASSETS

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

GAINS AND LOSSES ON DISPOSAL

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

DEPRECIATION

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Asset Class	Useful life
Buildings	
Structural	50 years
Internal Fit-Out	15 – 25 years
Mechanical Services	25 – 35 years
Security	15 years
Fire systems	15 years
Other Building Structures	15 – 25 years
Plant and Equipment	5 – 15 years
Motor Vehicles	2 – 5 years
Furniture and Equipment	4 – 10 years
Computer Equipment	2 – 5 years
Roads	
Subgrade	Not depreciated
Pavement	
Unsealed	10 years
Urban and Regional	60 - 100 years
Surface	5 – 20 years
Surface Water Channel	
Kerbing	40 years
Drains	8 – 15 years
Drainage	
Culvert	50 - 80 years
Stormwater Drainage	50 years
Footpaths	40 – 80 years
Parks and Reserves	
Land	Not depreciated
Softscapes	50 years
Hardscapes	40 – 80 years
Reticulation	20 years
Parks Furniture	10 – 20 years
Lighting	15 – 25 years
Other Structures	10 – 40 years
Right of Use (Plant)	Based on the remaining lease
Right of Use (Furniture)	Based on the remaining lease
Intangibles	
Computer Software	18 years

AMORTISATION

The depreciable amount of all intangible assets with a finite useful life, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The assets residual value of intangible assets is considered to be zero and useful live and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income.

BORROWING COSTS

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

Borrowings fair values are based on discounted cash flows using a current borrowing rate.

MATERIAL ACCOUNTING POLICIES

LEASES

At the inception of a contract, the Shire assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right-of-use asset is recognised at cost and a lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

LEASE LIABILITIES

The present value of future lease payments not paid at the reporting date discounted using the incremental borrowing rate where the implicit interest rate in the lease is not readily determined.
